You Don't Understand

Sebastian Bach

Is it a game that we're playing
It seems like the cloudy days keep coming in my life
Is it a game that we're playing
You don't understand, your love is taking over meI know, you wonder why I sometimes cry
When I should be happy
(I should be happy)
To have you in my lifeBut you don't understand the changes I've been going through
Just to be happy, I need you by my side
(Baby, just spend some time)Is it a game that we're playing
(Is it a game)
It seems like the cloudy days keep coming in my life
(Baby, take the rain away)Is it a game that we're playing
(Let it be a game)
You don't understand
Your love is taking over me
(Me)So many times, we said we'd try to make it right
But so many other things are getting in the way
(In the way)
All we got to do is lean on each other to make it happen
There's nothing more left to say
(Nothing that we can say)And I'm going crazy
Trying to do it by myself
But I really need your help
Baby, please listen to me
(Oh baby, please)I'm down on my knees
(Yeah)
Baby please
(Yeah)
Don't walk away
(Oh)Is it a game that we're playing
(Baby, don't let it be a game)
It seems like the cloudy days keep coming in my life
[Incomprehensible]Is it a game that we're playing
(You just don't understand)
Your love is taking over me
(That I love you, baby, yes I do)Is it a game that we're playing
(I don't want it to be a game)
It seems like the cloudy days keep coming in my life
(Take the rain away)Is it a game that we're playing

(Don't let it be a game)
Your love is taking over meAnd I'm going crazy
Trying to do it by myself
But I really need your help
Baby, please listen to me
(I'm a baby, please)I'm down on my knees
(Yeah)
Baby please
(Yeah)
Give me one chance
(Oh)And I want you to know
(I just want you to know)
If you love me baby
(Love me baby)
Just let your feelings show
(Oh yeah, yeah)Baby I love you
(Baby, I love you)
And I want you to know
(And I want you to know)
If you love me baby
(That if you love me, that if you love me)
Just let your feelings showBaby I love you
(Baby, I love you)
And I want you to know
(And I want you to know)
If you love me, baby
(If you love me, if you love me)
Just let your feelings showBaby, I love you
(Make you happy, I'll make you happy)
And I want you to know
(Everyday, every night)
If you love me baby
(If you love me baby)
Just let your feelings show
