

Let's Work Together Now

Donna Summer

Different faces other races
new conditions old traditions
all are one
From the humble to the mighty
those in need and those with plenty
all are one
yes we all are one
Let's work together now
towards a better kind of world
one for our children's child
Let's work together now
respect our neighbor's way of life
we've got to harmonize
Learn to give without return
and you will find yourself
with all the friends you need
All these problems on this earth
are only due to selfish acts of men's on greed
let's stop all this creed

Let's work together now
let's make a better kind of world
think of our children's child
please work together now
respect each person's way of life
let's start to harmonize
Different faces other races
new conditions old traditions
all are one
From the humble to the mighty
those in need and those with plenty
all are one, yes we all are one
Let's work together now
let's make a better kind of world
think of our children's child
please work together now
respect each person's way of life
let's start to harmonize
let's work together now

let's make a better kind of world
think of our children's child
