Victim

Kim Wilde

Back in my younger days
Decided to break away
Get out the door find a place to stay
The folks took it bad you see
The pride in the family
Guess they expected a nurse some dayBut we were out there and gunnin'
Fueled up and runnin' out on the highway
Looking for something
Your crazy world does nothing for us
And if we shout you just ignore us
So no more push and shove, the victims of your loveIt was back in my younger days
Decided to break away
Get out the door find a place to stay'Cos we were out there and gunnin'
Fueled up and runnin', lost on the highway
Looking for something
Your crazy world does nothing for us
And if we shout you just ignore us
So no more push and shove, the victims of your loveVictims
Victims
Victims
VictimsYour crazy world does nothing for us
And if we shout you just ignore us
So no more push and shove, the victims of your love
The victims of your love
The victims of your loveThe victims
The victims
The victims
The victims
The victimsThe victims
The victims
The victims
The victims
The victims
