Last Call

Dave Bray

Man down, man down, I'm bleeding out.
There's no time, no time so please hear me out.
These are the last few words that I'd like to say to you all
This is my last call

Tell my wife I love her, and that I wont be home tonight
Thank her for those long hard years that we tried to get it right
Tell her I'll be waiting after she makes it through it all
This is my last call

But ask her to forgive me, and tell her I'm sorry that I can't be the man that she's gonna need
Tell her I'll be waiting where the winter meets the fall
This is my last call

Tell my children that I love them, oh that daddy always loved them so
Tell them to hold their mother tight and to never let her go
Tell them I'll always be watching looking over them through it all
This is my last call

Tell them to fight for me
Do what's right for me
Choose the light for me
Don't ever forget me
Tell them I'll always be watching, and I'll be there when they fal
This is my last call

For those who served beside me, and who held that thin blue line
Stand tall, stand strong and hold your head up high
I'm sorry I let you down today, please know I gave my all
This is my last call

My last --

So raise a glass for me, and kick some ass for me
Ring a bell for me
Send a flame to hell for me
I'd like to think I've saved a few good lives, but I couldn't save them all
This is my last call

Yeah, I'd like to think I'd saved a few good lives, but I couldn't save my own

This is my last call
