

I Do It for Your Love

The Bohicas

Hey, I've been down for way too long
Hey, my life's soundtracked by torch song
I want you back, back honey
Come back and gimme someHey, I dine on dead memories
Hey, sweet dreams are made of these
I want you back, back honey
Come back and gimme some'Cause I can smarten up or I
Can dumb it down, keep my
Venus flytrap shut because
I do it for your loveHey, remember the famous people's jaws?
Hey, it looked like a fire hit Madame Tussauds
I want you back, back honey
Come back and gimme some'Cause I can smarten up or I
Can dumb it down, keep my
Venus flytrap shut because
I do it for your loveBecause we're climbing up
Ladders in snaketown from the
Bottom to the top because
I do it for your loveI do it for your love
I do it for your love
