You Now

Nite Jewel

don't wanna keep waiting for my ID to blow
no hesitating to see how it always goes
maximally i need a thousand and ten
that means giving more
giving me more than you ever didi make you go crazy oh all the time
because i can't bear to leave your side
(see i cannot bear to leave your side)you tell me your love is coming straight for me
you want me to stare and wait for you patiently
but there's nothing right about a woman in wait
oh don't lock me up set me free i'm okayi make you go crazy oh all the time
because i can't bear to leave your side
i need you to need me oh all the time
because i can't bear to leave your side
(see i cannot bear to leave your side)
