

# You Now

## Nite Jewel

don't wanna keep waiting for my ID to blow  
no hesitating to see how it always goes  
maximally i need a thousand and ten  
that means giving more  
giving me more than you ever didi make you go crazy oh all the time  
because i can't bear to leave your side  
(see i cannot bear to leave your side)you tell me your love is coming straight for me  
you want me to stare and wait for you patiently  
but there's nothing right about a woman in wait  
oh don't lock me up set me free i'm okayi make you go crazy oh all the time  
because i can't bear to leave your side  
i need you to need me oh all the time  
because i can't bear to leave your side  
(see i cannot bear to leave your side)
