

# More Than I Can Stand

## Los Lobos

Oh, baby  
Girl, don't pull the rug from under my feet  
Don't do it baby  
Don't leave, don't leave me so  
I'm talking in my sleep This could be the start of a nightmare  
Waking up and not finding you there  
It would be more than I could stand Oh, baby  
Girl, don't leave me so I'm pacing the floor  
Don't do it baby  
'Cause that's, that's what I'll do  
If you close the door, yeah Maybe I've been too hung up on myself  
But don't change me by putting my heart on a shelf  
It would be more than I could stand, listen baby Why you wanna leave me? Why you wanna go?  
I promise not to never hurt you, no more  
Please don't leave me, please don't go  
It's causin' my heart to ache, causin' it to break We, we've still got a love  
Got of love to give, yeah  
So turn around, baby, turn around  
While there's a lot of life to live Leavin' me would ruin all of my plans  
It would be like tying the both of my hands  
And that is more baby than I could stand, yeah Why you wanna leave me? Why you wanna go?  
I promise not, never hurt you, no more  
Please don't leave me, please don't go  
I promise not, never, never hurt you, no more Please don't leave me, please don't go  
I promise not, never hurt you, no more  
Please don't leave me, please don't go  
I promise not, never hurt you, no more Please don't go, baby, please don't leave  
I never, never, I never, never hurt you, no more
