

# Get Ready

## Silent Poets

I know the storm is coming  
There are clouds up ahead  
    You can't keep running  
You better face the clouds instead  
    When the storm winds blow  
    Don't you cover and hide  
You've got to let go of the demons  
    You're keeping inside  
There's no shelter from your pain  
    So get ready for the rain  
    Get ready for the rain  
Now you can't change the weather  
    Though you've tried to for years  
    But the rain is coming  
And there's no way to hold back the tears  
    Too late to say you're sorry  
    You'll have to take the blame  
    But the water is rising  
And it won't wash your problems away  
    There's no shelter from your pain  
    So get ready for the rain  
    Get ready for the rain  
    So get ready for the rain  
    Get ready for the rain
