Butterflies

Fred Ellis

Butterflies we can see them in the sky
watch them flap their wings,
watch them flap as they fly high.Butterflies we can see them in the skies,
what beautiful colors they are,
what beautiful colors they paint the skies.Butterflies we can see them in the skies
they make me feel so grand,
I want to dance as they fly highButterflies turn a grey sky into blue
the fragrance of the air turn honey sweet
like morning dew thats what butterflies can do.
