

# Butterflies

[\*\*Fred Ellis\*\*](#)

Butterflies we can see them in the sky  
watch them flap their wings,  
watch them flap as they fly high. Butterflies we can see them in the skies,  
what beautiful colors they are,  
what beautiful colors they paint the skies. Butterflies we can see them in the skies  
they make me feel so grand,  
I want to dance as they fly high. Butterflies turn a grey sky into blue  
the fragrance of the air turn honey sweet  
like morning dew that's what butterflies can do.
