From Wrong to Right

Stryper

I've changed my ways from wrong to right, yeah
The devil never pays, no, he robs just like a thief in the night
So many bands give the devil all the glory
It's hard to understand, we want to change the storyWe want to rock one way, on and on
You'll see the light some day, all say Jesus is the waySatan is a fool and it's so insane
Some people think he's cool, you play with fire, you'll feel the pain
Why lose when you could win? Give God a try
The devil's not your friend, the truth is not a lieI've changed my ways from wrong to wright, yeah
Evil never pays, no, the truth is not a lie
