

# Get Busy

## The Roots

Look my squad's half mandrill half Mandela  
My band bout seventy strong just like fela  
Yeah part Melly Mel part Van Halen  
And we represent illadel where they still rebellin'  
A yo sicko show like mike moore's  
My city ain't nothing like your's  
Slippin' into darkness like war! night-crawl  
With the lights off, you see a lot of life loss for the white horse  
Regardless, the charges makin' us all targets  
All on the red carpet, guns from the black market  
Hey who got the politicians in they back pocket  
Pimp slap pump that gimme that profit  
When you make contact gimme that gossip  
If you break contract you'll be that hostage  
They getting busy in the city it's raw  
Better deadbolt the door it ain't safe no more Southside get busy yall  
Northside get busy yall  
Westside get busy yall  
Worldwide get busy yall Approach with caution be cautious when talking to bosses  
I feel I've been through a metamorphosis  
I'm mutated by unknown forces  
The feelin' of course is something thats hard to describe I'm half dead never felt more alive  
Reborn removed the gold coins from my eyes  
I've been down but now I'm back up  
Bout to act up boy you better back up  
When you see me set up shop know to pack up  
I crack up when a rapper gets slapped up  
Number one reason yall should give rap up  
Dice it's mine, I got it all wrapped up  
I'm kinda W.E.B. Dubois meets Heavy D and the boys smooth as a Rolls Royce  
Built like a tank smoking on dank  
I'm walking through the Guggenheim Raw Life Black Ink Southside get busy yall  
Northside get busy yall  
Westside get busy yall  
Worldwide get busy yall Now on your mark get set  
Go cop everything you ever heard by P.Crack Dice Raw and Black  
Fuck the internet buy a baseball bat break a bootlegger  
Leg all I listen to is vets, your fresh of the step  
I come directly at your OG neck

I'm used to the one two check not the one two step  
Um strapped I'll leave every cat among you wet  
Now lets go! you know I'm politically incorrect  
At the show I start it with a can I get a ho and the hoes go retarded  
The popo tape off the stage for caution, its badlands north philly get it in!  
Its crack man, used to backspin now I spend stacks in sack's and  
Uncle Sam tryin' to tax all my hard earned raps damn!  
We makin' yin, pesos, euros, we representin'Southside get busy yall  
Northside get busy yall  
Westside get busy yall  
Worldwide get busy yall
