Liberation (2001 Remaster)

Pet Shop Boys

Take my hand, I've changed my mind again Really, I believed it true That all who fell in love were foolish But I was wrong, I've learned that lesson well All the way back home at midnight You were sleeping on my shoulderTake my hand, Don't think of obligations Now, right now, Your love is liberationTo free in me The trust, I never dared I always thought the risk too great But suddenly, I don't hesitate, so Take my hand, Don't think of complications Now, right now, Your love is liberation LiberationTa ra ra ra ra ra Ta ra ra ra ra The night, the stars Our light shone through the dark

You were sleeping on my shoulderTake my hand,
Don't think of hesitation
Now, right now,
Your love is liberation

All the way back home at midnight
