

Looking for Jack (New Recording)

Colin Hay

Everybodys always looking for Jack
In the fire and in the water
Everybodys always looking for Jack
In the streets and on the corners I always wanted to be like Jack
Hes as cool as they come
Yeah, I always wanted to be like Jack
Still for me, hes the one Someday, someday
Someday, someday Hear the wind blow through the long grass
I hear laughter in the night
No revelations as the years pass
Just disappear from sight As I grow older, I grow younger
Every day is like a dream
I wouldnt go back for a moment
Except for maybe seventeen Someday, someday
Someday, someday Everybodys always looking for Jack
In the fire and in the water
Everybodys always looking for Jack
In the streets and on the corners Yeah, even Jack is always looking for Jack
Hes always in another room
And when I spoke to the woman there
She said, "He left this afternoon" Someday, someday
Someday, someday Someday, someday
Someday, someday
