

I Just Wanna Love You (feat. John-Robert Rimel)

MattyB

You know, everybody needs somebody that's by their side
So when I saw this girl our two worlds collided
I think about her and it ain't even fair
The way she moves to the music like it ain't even there
And when she passed me by her eyes stopped the moment
Crazy, dizzy, stupid in love, can't control it
I'm usually the king of composed, a true fella
But I'm, under her love like a, an umbrella I said oh, tell me where did you go
I fell in love with the vision of the girl I saw
What's your name, shorty, I gotta know
I said oh, come and give me a sign
Because a girl like you, deserves a boy
That'll promise to treat you right So tell me are you out there
With the pretty blonde hair
Cause I've been looking for ya
I can't find you anywhere, say yeah, say yeah
Cause I just wanna love you So tell me are you out there
With the pretty blonde hair
Cause I've been looking for ya
I can't find you anywhere, say yeah, say yeah
Cause I just wanna love you
I just wanna love you
I just wanna love you
I just wanna love you I know there's
Dudes who treat her well
I'd treat her better
She gone with the wind
Like she blend with the weather
Whether she's hot like fire
Just a glance, she gone
Or turns cold, I don't know where she goes, nope Little thief of sorts
Lookin' for more
Missy - stole my heart
With that look I adore
She's my beauty queen, #1 on my team
The leading lady for me, way out of ya league I said oh, tell me where did you go
I fell in love with the vision of the girl I saw
What's your name, shorty, I gotta know
I said oh, come and give me a sign

Because a girl like you, deserves a boy
That'll promise to treat you right So tell me are you out there
With the pretty blonde hair
Cause I've been looking for ya
I can't find you anywhere, say yeah, say yeah
Cause I just wanna love you So tell me are you out there
With the pretty blonde hair
Cause I've been looking for ya
I can't find you anywhere, say yeah, say yeah
Cause I just wanna love you
I just wanna love you
I just wanna love you
I just wanna love you So where you at
Look around the world and then
I double back for you, for you
So where you at
Look around the world and then
I double back for you, for you So tell me are you out there
With the pretty blonde hair
Cause I've been looking for ya
I can't find you anywhere, say yeah, say yeah
Cause I just wanna love you So tell me are you out there
With the pretty blonde hair
Cause I've been looking for ya
I can't find you anywhere, say yeah, say yeah
Cause I just wanna love you
I just wanna love you
I just wanna love you
I just wanna love you
I just wanna love you
I just wanna love you
I just wanna love you
I just wanna love you
