

# Asthmatic (Punctured Lung Mix) [Bonus Track]

## Spineshank

It starts to tear me down  
Destroyed by what I create  
It left the nerve exposed  
Feels like a lost cause  
Frustration's all I have left  
It's what reduced me to this  
Turned me against myself

It's still a lost cause  
I can't keep doing this to myself  
But it's the only way to forget who I am  
Your disability

Kept pushing me away  
It went beneath what's so real to me  
And threw it all away  
I underestimated  
The lengths that you would have gone  
To deny who you are

You threw it all away  
I will keep doing this to myself  
'Cause it's the only way to forget who I am  
I never wanted your help

I never needed your help  
This failure has to be all mine all mine now  
I'll turn my back on myself  
If it's my only way out

It can only help me if it hurts  
I won't give into, I won't give into...

I won't become one with your lies  
I never wanted your help  
I never needed your help

This failure has to be all mine all mine now  
I'll turn my back on myself  
If it's my only way out

I'm too tired to feel anything anyway  
I will keep doing this to myself  
'Cause it's the only way to forget who I am  
I never wanted your help

I never needed your help  
This failure has to be all mine all mine now  
I'll turn my back on myself  
If it's my only way out

I'm too tired to feel anything anyway  
I have become one with your lies
