Blood Brothers

Malevolent Creation

Nightfall beckons
Our gathering
Stronger we grow
Together as one
Unceasing will to live
To take life, not giveWe've killed before
We'll kill again
Animals we are
Not menLife is the key to immortality
In the end there can only be onePartners in crime forever
'Til death do us part
Seeking gain for existence
we remain blood brothersExempt from death, exempt from oblivious

For now we remain blood brothersExempt from death, exempt from oblivion

Lifeline is cut off to allKilling with no sign of stopping

Perpetual means of survivalWe've killed...

...Seeking gain for existence For eternity I will return
