

Orion

The Mynabirds

Baby you're all I want
I've known from the start
Watched you from every window
my light in the dark
So many others failed
but you never have
I just need to get to you, love
anyway I can
Calling out your name
but are you listening
oh oh oh oh oh
Calling out your name
oh
Orion
my strong man
I dream of you,
as real as I am.
Oh baby, why
I'm being let down again
Our love is like
Two humans
I'll close my eyes
and wait for the night to send
these arrows to you.
Calling out your name
but are you listening
oh oh oh oh oh
Calling out your name
oh
Orion
my strong man.
I dream of you,
as real as I am
So what's wrong then
With our secret.
Tied up safe in the night
where heaven can keep it
We'll meet by the Pleiades
Every night at 10 to 3

We'll make eyes at the sisters
and no one will see.
Calling out your name
Calling out your name
Calling out your name
Orion

My strong man
I dream of you, as real as I am.
What's wrong then
with our secret
tied up safe in the night
where heaven can keep it

Orion
My strong man
keep me safe in the night
safe in the night
Keep me safe every night
