

# One Love

## Eddie Money

One love, now  
What you need is one love  
One true love A good love, it takes work  
Just like your life on earth, and  
There's some pain and some hurt, but now  
Take your life, now baby, for what it's worth and (One love)  
One love, one love  
(Only one love)  
All you really need is one, one, one, one love  
(One love)  
That's right, that one true love  
(Only one love) Two hearts will find a way  
One love is all it takes  
So don't throw it all away One love  
All you really need is one love now  
One, one, one, one love, one love, one love, one love  
One true love With luck and some time  
You'll look and maybe you'll find, now  
That, that somewhere, that someone  
That one of a kind (One love)  
One love, one love  
(Only one love)  
All you really need is one, one, one, one love  
(One love)  
That's right, I said that one true love, ooh yeah  
(Only one love) Two hearts will find a way  
One love is all it takes  
Don't throw it all away One love, now  
(One love)  
All you really need is one love now  
(Ah)  
One true love, that's right, just what I said that  
(One love)  
One true love, oh, that's right  
(Ah) Two hearts will find a way  
One love is all it takes  
So don't throw it all away One, one, one, one love  
Believe me, wanna take you home Two hearts will find a way  
One love is all it takes

So don't throw it all away One love  
(One love)  
All you really need is one love now  
You never will forget that one, one love now  
Once you love her With a little luck, with a little time  
You're gonna look and maybe  
Maybe you will find now, that  
That somewhere, that someone  
That special, that one of a kind That's right, good love takes hard, hard work, now  
Just like your, your life on earth, now  
And some pain and some hurt, now, baby, yeah  
Everybody, all we really need...
