Hope I Don't Wake

Steve Hackett

Hope I don't wake in the morning
Find you running right away
Every hour I'm down and worried
Dream about it night and dayTo many places you can go
When drowning in your sleep
But no one wants to lie awake
For hours counting sheepI'm fine what about you
OK tell me the news
We all know how to fight
When there's something to lose
In my mind I feel elation - oh, oh ohHope I don't wake in the morning
Find you running right away
Every hour I'm down and worried
Dream about it night and dayFor many days I know you'll go
Surrounded by four walls
By yourself you'll stay inside
Behind your own front doorI'm fine what about you
OK tell me the news
We all know how to fight
When there's something to lose
In my mind I feel elation - oh, ooh oohHope I don't wake in the morning
Find you running right away
Every hour I'm down and worried
Dream about it night and dayWell I need to be on my way
Hope to get through another day
Well you know what shape I'm in
And it seems I can never winOh oh
Hope I don't wake in the morning
Find you running right away
Every hour I'm down and worried
Dream about it night and day
