

Sound of a Broken Heart

Jukebox the Ghost

You never saw me, you never did,
Though I tried, and tried, and tried to get you to notice.
I think I'll always love you, I just might.
Oh, I think I'm gonna love you until the day that I die. I wanna get you over by my side.
When you're next to me babe,
You can only ever do right.
So come on over to my side.
When you're next to me babe,
You can only ever do right. That's the sound of a broken heart. (x3)
Stop! You never, ever told me, you never do,
Though I could see from the look in your eyes that something was troubling you.
You say you didn't ever tell me, cuz there was nothing I could do.
But baby I'm here to tell you that that just ain't true. I wanna get you over by my side.
When you're next to me babe,
You can only ever do right.
So come on over to my side.
When you're next to me babe,
You can only ever do right. That's the sound of a broken heart.
That's the sound, sound, sound of a broken heart.
That's the sound of a broken heart.
I think I'll always love you, I just might.
I'm gonna try until the day that I die
to get you over by my side.
When you're next to me baby,
You can only ever do right.
So come on over to my side.
When you're next to me baby,
You can only ever do right. That's the sound of a broken heart.
That's the sound, the sound of a broken heart.
That's the sound of a broken heart. (x10)
