Dixie Roadrash

Common Rider

Dixie Roadrash at the world's most obvious car crash
She went through twenty states but the one I hate came lastWhoa, nothing slows down
nothing ever turns around
She slipped right through my handsHerbal remedies are best for minor maladies
Don't want those flowers to lay beside her name
Please excuse me if I don't stand up and tell you things
All those fun and games just left with her todayChorusIf I could have just one wish come true
I'd wish you here with me - or that I coulda been there with youChorus
