

# Night's on Fire

David Nail

Cue the music out the driveway  
Slow summer on a Friday  
Here we go again, wild in the wind  
Mama knows she's gonna be late Hit the party just to watch her dance  
Good to go when she grabs your hand  
Like a shot from a gun, it's a dead run  
The first leg of a getaway plan You burn rubber when you smoke them tires  
Day's gone and the night's on fire She's telling you turn off the highway  
The sunset melts all the blue away  
Blackbird watching on the telephone wire  
Whiskey on her lips and the night's on fire Littered with stars close enough to touch  
July promise in the back of that truck  
Her every move was taking you higher  
You try to play it cool but the night's on fire She's a seat laid back, a boy's dream  
Drawin' hearts in the window steam  
She's a gettin' you right, knows what you like  
And pours it on like gasoline When you know what you're headed to  
What's a red blooded boy to do She's telling you turn off the highway  
The sunset melts all the blue away  
Blackbird watching on the telephone wire  
Whiskey on her lips and the night's on fire Littered with stars close enough to touch  
July promise in the back of that truck  
Her every move was taking you higher  
You try to play it cool but the night's on fire  
You try to play it cool but the night's on fire She's telling you turn off the highway  
The sunset melts all the blue away  
Blackbird watching on the telephone wire  
Whiskey on her lips and the night's on fire Littered with stars close enough to touch  
July promise in the back of that truck  
Her every move was taking you higher  
You try to play it cool but the night's on fire  
You try to play it cool but the night's on fire You try to play it cool but the night's on fire
