It'll Make You Happy

Savoy Brown

Danger, see it in your life
Always be aware that there is danger
Everywhere you go
Look behind a smile and you'll find heartacheI know that love is hard to find
Could it be that everyone is frightened
By the lonely nights
People never smile they make it harderMother told me Papa said
A little love won't hurt
It'll make you happy
It'll make you happyI know something 'bout the ways of life
What most people need is understanding
Help them know the right from wrong
Show them that they're all a part of this worldMother told me Papa said
A little love won't hurt
It'll make you happy
It'll make you happyI know that love is hard to find
Could it be that everyone is frightened
By the lonely nights
People never smile they make it harderMother told me Papa said
A little love won't hurt
It'll make you happy
It'll make you happy
