

Party Like a Rock Star

Big Engine

I've been waitin' for the weekend
To chase these blues away
I'm gonna set my soul in motion
Forget all about these bills I gotta pay
I'm gonna call up all my good friends
And say hey meet me downtown
They'll know where I'm goin'
Its time to shake it up
Its time to get down I'm gonna sing along to every song
all night long
Dance on the bar and play air guitar
And Party
Party
Party
Party like a rock star I've been workin' everyday now
Way more than 9 to 5
I've been cooped up tied down every time I turn around
Something else to take up my time
I know its gonna get better
As soon as I walk through that door
I'll grab my hot chick a cool drink don't care what anybody thinks
I'm headed right out to the floor No matter where you work or what you do
A stay at home mom or a master of tattoos
Drive a truck, build motorcycles, or work on race cars you gotta party
Party
Party
Party like a rock star
