Its A Fire

Portishead

It's a fire, these dreams they pass me by
The salvation I desire keeps getting me down
'Cause we need to recognize mistakes for time and again
So let it be known for what we believe in
I can see no reason for it to fail
'Cause this life is a farce I can't breathe through this mask
Like a fool so breathe on, sister, breathe on

From this oneself testify or tell
It's fooling us now
So let it be known for what we believe in
I can see no reason for it to fail
'Cause this life is a farce I can't breathe through this mask
Like a fool so breathe on, little sister, breathe on
Oh, so breathe on, little sister, like a fool
