Fall With Me

Meredith Lockwood

I donâ€™t know where you will stand
When I let you in on my master plan
To make you fall in love with me tonight
Oh tonight

Iâ€™m not tired of waiting for you
Cause to you wait for you is an honor for me
You are a bright and shining star in the world
In the world

Fall with me, fall with me
Iâ€™ve already fallen, already fallen
Down

Itâ€™s true my love our time is borrowed
Weâ€™re not promised to see tomorrow
So now I must confide in you to say
Please say

That youâ€™ll fall with me, fall with me
Iâ€™ve already fallen, already fallen
Fall with me, fall with me
Iâ€™ve already fallen, already fallen

Ooh x4
Ooh x4

And if you canâ€™t return the feeling
I wonâ€™t pretend I wonâ€™t be reeling
Youâ€™re worth the risk of falling
Any day
