

Hell Is High

Black Label Society

Hell is high so am I
A junkie's rush flying across the sky
A million mile an hour, no, it ain't enough
Machine gun mind and a junkie rush Life is good, life is fine
Pull the trigger one more time Hell is high and you all know
When the petal hits the floor it's time to roll
A million mile an hour, no, it ain't enough
Machine gun mind and a junkie's rush Life is good, life is fine
Pull the trigger one more time Hell is high, so are you
Take a look in the mirror, yeah, you know it's true
A million mile an hour, no, it ain't enough
Machine gun mind and a junkie's rush Life is good, yeah, life is fine
Pull the trigger one more time
