

Victims Of The Future

Gary Moore

Searching each day for the answers, watching our hopes disappear
Set on a course for disaster, living our lives in fear
Our leaders leave us in confusion
For them there's only one solution
Caught in the fight for survival, trapped with our backs to the wall
Are we just lambs to the slaughter who wait for the axe to fall?
Our world is headed for destruction
Our fate is in the hands of fools
Shadows of the past
Victims of the future
How long will it last?
Victims of the future
Into the verbal arena armed with the lies that they tell
They're fighting for world domination backed by the weapons of hell
Is there no end to all this madness?
Is there no hope for us at all?
Shadows of the past
Victims of the future
How long will it last?
Victims of the future
Shadows of the past
Victims of the future
How long will it last?
Victims of the future, yeah
Shadows of the past
Victims of the future
How long will it last?
Victims of the future
Shadows of the past
Victims of the future
How long will it last?
Victims of the future
Victims of the future
Victims of the future
Victims of the future
Victims of the future, yeah
