Fools That Dream

Radney Foster

The reason's it won't work are more than I can count
A love that's doomed right from the start
This modern world just fills your head with fears and doubts
We'd end it now, if we were smartBut the only ones that make love last forever
Are fools that dream
Come on, baby, we'll risk our hearts together
Like fools that dreamEverybody knows someone life dealt a hellish hand
God only knows how they survive
They tell you love's what got 'em through the dark
How they prayed through tears and just called it life'Cause the only ones that make love last forever
Are fools that dream
Come on, baby, we'll risk our hearts together
Like fools that dreamIf we all walked through this world, scared to take a chance
Just imagine where we'd be
It's always dreamers that teach us how to dance
And I want you to dream with me'Cause the only ones that make love last forever
Are fools that dream
Yeah, the only ones that make this world any better
Are fools that dreamYeah, come on, baby, we'll risk our hearts together
Like fools that dream
Yeah, we can be fools that dream
Yeah, we can be fools that dream
