We Come Alive

Joey Tempest

Well it's early evening and I'm at your door
Thinking of things to say
It's been a long hard week since I saw you now,
Baby, you're always worth the wait
I feel kinda restless, nervous I guess
But so lucky to be alive
We take the city by the hand
It's our time tonight

We come alive
Yeah, we come alive with the night
We come alive
Yeah, we come alive with the night

You've got your black jeans on
And your worn out shirt
Like the casual girl I know
I'm gonna take you down town to this place I know
Where they play our kind of rock and roll
For a moment I feel when I look in your eyes
That I've found what I'm searchng for
Heaven's right in front of me and I'm
Steppin through the door

We come alive
Yeah, we come alive with the night
We come alive
Yeah, we come alive with the night

Look out!
Well we walk on in and the music's loud
And the lights are way down low
The air fills up with ecstacy
As we dance the whole night through
I love the way we touch and express ourselves
Such a natural way to be
Now I know why the night belongs
To fools like you and me

Like thieves we steal each other's time

We have to go back home
Got my arms around you so glad I found you
And it's something I've done on my own
Baby in just a little while we could go our separate ways
But we both know we'd fool ourselves
This night ain't over yet

We come alive
Yeah, we
