

You Are Here

That Dog

You are here
You are there everywhere
Love me too
'Cause you know that I'm nowhereSomething in the way you move
Distracts me like no other
Something in the way you move
Distracts me like no other, no otherEight times a week is not enough
To show I'm there
You can confide your love awaySomething in the way you move
Distracts me like no other
Something in the way you move
Distracts me like no other
