Stone River

J.J. Cale

Stone River, water ain't runnin' no more
Stone River, water ain't runnin' no moreBut man, he done come an' gone, polluted all around
There ain't no river runnin', no water can't be foundStone River, water ain't runnin' no moreFish ain't swimmin', ain't no fish around nowhere
Fish ain't swimmin', ain't nobody seem to careThey bottled up and dammed it, choked it up and canned it
Killed the life around it and stole it like a banditStone River, water ain't runnin' no moreWhat used to be a river, now is just an empty site
Ain't no vegetation, it's just an agitation, it don't seem rightThere ain't no trees a growin', no animals are showin'
What used to be a stream is now just a dreamStone River, water ain't runnin' nowhere
Stone River, water ain't runnin'Man, he done cut it off, and moved it all around
There ain't no river runnin', no water can't be foundStone River, water ain't runnin' no moreThey bottled up and dammed it, choked it up and canned it
Killed the life around it and stole it like a banditStone River, water ain't runnin' no moreThere ain't no trees a growin', no animals are showin'
What used to be a stream is now just a dreamStone River, water ain't runnin' nowhere
Stone River, water ain't runnin' nowhereStone River, water ain't runnin' no more
