Nowhere Fast

Old Dominion

Grass stained bare feet
Dove in my front seat
Windshield full of road to run
And a gas tank full of freedomRed sky faded to black
A couple cans deep in a six pack
World disappearing around us
Temptation always found usWith beer on our breath in a parking lot
Kill the headlights so we wouldn't get caught
Radio glow on the dash
We were messin' around
We could hardly breathe
Breakin' new ground in my back seat
We had our foot on the gas
Goin' nowhere fastOne summer of sunsets
Was as far as we were gonna get
So caught up in how it feels
We didn't care if we were spinnin' wheelsWith beer on our breath in a parking lot
Kill the headlights so we wouldn't get caught
Radio glow on the dash
We were messin' around
We could hardly breathe
Breakin' new ground in my back seat
We had our foot on the gas
Goin' nowhere fastYeaaheeWith beer on our breath in a parking lot
Kill the headlights so we wouldn't get caught
Here and gone in a flash
Yeah
We were messin' around
We could hardly breathe
Breakin' new ground in my back seat
No way to know if it would last
But we had our foot on the gas
Goin' nowhere fast
Goin' nowhere fast
