

Gun Do Da Talkin'

Lil' Wyte

Chorus x2]

I'm a' blast on a hater
and worry bout it later,
got heatas in my hand
Masked up like Darth Vader

I don't wanna rap
i let my guns do the talkin
i don't wanna rap
i let my guns do the talkin

[verse 1 - lil wyte]now i don't tote around

or even talk to you chumps
i eat,sleep,get high
and even walk with this pump
you cross me wrong one time
one times to many

i got about a thousand rounds
and ill pop off plenty,

and i know youngstas in the hood
that will pop for penny's

so fo a hundred bones you'll wash up
on that banks of the sippi.

and they virginity they ain't been takin
but they take what shorty life

now he on his way upstate

they gave a shorty life

thats what i mean when i say

we'll worry bout it later

he didnt think he just went out

and blasted at him a hata.

life's too short to not be out here

chasin that papa. that's why I'm out here

masked up in all black like Darth Vader

Chorus x2]

I'm a' blast on a hater
and worry bout it later,
got heatas in my hand
Masked up like Darth Vader

I don't wanna rap
i let my guns do the talkin
i don't wanna rap
i let my guns do the talkin
[verse 2 - lil wyte]now if you see me in the streets
don't think i wont do sometin crazy
walk up with this 380 put it right to ya baby
i got kids and i know that could be the worse thing i could do
if anyone takes some beef that far there really meanin business foo.
so just cooperate and don't make a sudden move
one wrong word could leave some bullets up in you
im so gangsta bitch don't even get me twisted,
you got past do bills and your brain could get evicted
and we don't fuck around in the gritty grimy great city of Memphis
we known for three thangs barbecues, good music and pimpin
if you make your way down here
make sure your strapped when you out walkin cuz
we don't rap around out here
we let our pistols do the talkin...yeaaaaaaa

Chorus x2]

I'm a' blast on a hater
and worry bout it later,
got heatas in my hand
Masked up like Darth Vader
I don't wanna rap
i let my guns do the talkin
i don't wanna rap
i let my guns do the talkin
