

# No Name #2

## Dorian Minor

Concrete hands picked up the telephone ring  
Do you know who you're talking to?  
    No, and I don't care who  
She whispered quiet terror news  
    He didn't give a hoot  
    Said do what you have to do  
    All she had to do was speak  
        Mouthpiece to cheek  
        Please, say no more  
    I'm lying here on the ground  
    A strip of wet concrete  
    Her name was just a broken sound  
A stutter step you hear when you're falling down

Killing time won't stop this crying  
Killing time won't stop this crying  
Killing time won't stop this crying  
Better start watching what message that you send now  
    No more situations I only go in to be kicked out  
He got knocked down leaning like he ran into a clothesline  
    He only remembered a couple of words that hid a crime  
You're just fine, you'll be just fine, but I'm on the other line  
    Killing time won't stop this crying  
    Killing time won't stop this crying  
    Killing time won't stop this crying
