Girl

Duffy

Girl, girl, stay awake, girl, girl
Come back another day, girl
Better still don't come back ever stay away from here forever
Cause he's mine, mine, and I love him
So girl, stay away
You better cut out, girl
Keep away from him, girl
You're trying to still my guy, girl
I don't wanna share, girl
Better still let's call it never stay away from here forever

Cause he's mine, and I love him, so girl, stay away
You know you ought to know better why break my heart
Why can't you leave us alone?
So stay away and find your own seen baby, find your own seen baby
Girl, girl, stay away, girl
Girl, come back another day, girl
Better still don't come back ever stay away from here forever
Cause he's mine, mine
And I love him, so girl, stay away
Stay away, you better find your own seen
Stay away, you better find your own seen
Stay away, you better find your own seen
