Making Love

Eric Benet

It feels unbelievable wen my bodies wrapped around you
Forever could never be enough
But it's not thru physical wen my soul is tryin to reach you
The heart is the way to makin loveNow I've come to understand thru a life of deeper meaning
N wanting to love u even more
The touch is devine but deeper inside is where we should keep love alive
Love has answered my call but it's taken meAll of this time
I've been learnin the way to make love right
All my days and my nights
all my life I wanna spend it with u makin loveI wanna lay u down on the bed of our emotions
And grace u with tenderness and truth yeah yeah
I'll be inside of you with the strength of my devotion
N cherish each momment shared with youOne rythm of life body and mind
leavin this whole world behind
In the heat of it all
only deeper we'll fallAll of this time
I've been learnin the way to make love right
All my days and my nights
all my life I wanna spend it with u makin loveLove made every momment evry word we say
Love found in the pleasure and the pain for always
Days fall by the second and the years will fade
But I wont waste our time 'cause I'm givin uAll of my life I
Keep on learnin new ways to make love
right
And with all of my might
Day and night I
wanna spend it with u makin love
