

Jazz Guy

The Presidents Of The United States Of America

I want to be a jazz guy
And play the greatest American music
I want to be a jazz guy
And play the greatest American music

I want to learn all the chords
Solo till everyone in the room
Is bored

I want to be a jazz guy
And play black music for white people
I want to be a jazz guy
And play black music for white people

I want to learn all the chords
Solo till everyone in the room
Is bored

Beyond belief
I can't wait for the end of my solo
A sweet, sweet relief

I want to be a jazz guy
And play the greatest American music
I want to be a jazz guy
And play the greatest American music
I want to be a jazz guy
And play the greatest American music
I want to be a jazz guy
And play the greatest American music

I want to learn all the chords
Solo till everyone in the room
Is bored
