

Always Like This

[Dan Croll](#)

Sympathy comes out in the night
Sympathy comes out of fright
Oh, when it's cold outside
Showing your lonely side
It's always like this But it's summer now and it's warm outside
Take a bite and you're distracted
For then is a little while
That always makes you smile
It's always like this Step on me, come step in time
Bring it in to the ringing shine
Your heart, it feels so close
Like the ground beneath my toes It's always, it's always
It's always, it's always like this
It's always, it's always
It's always, it's always like this It's always, it's always
It's always, it's always like this
It's always, it's always
It's always, it's always like this It's always, it's always
It's always, it's always like this
It's always, it's always
It's always, it's always like this
