No Hope

Like Moths to Flames

When there's no hope,
how can we make it alive?
It's so seperated and nothing's alright.
We live our lives so lifelessly.
It's so hard to exist and not to believe.

But I'll die still wondering why,
I tried to live my life and to let you inside.
But I'll die still wondering why,
I ever let you into my life.

We live our lives to feel like we belong.
So, we don't care when the good die young.
And though there's nothing there,
I can make it through.
I'm sorry, but I swear,
I don't need you.

We live our lives to feel fucking hopeless,
but this time you made me hate myself.
How did I let you in my mind?
Get me out of this life.
Just get me out alive.

I won't come back again.
So seperated.
Just get me out alive.
So seperated.

When there's no hope,
how can it change for the better?
I'm at the bottom and I don't remember
the way it was before,
when there's nothing left here anymore.

We live our lives to feel like we belong,
so we don't care when the good die young.
And though there's nothing there,
I can make it through.

I'm sorry, but I swear,

I don't need you here.
I don't need you here.

So, we don't care when the good die young.
And though there's nothing there,
I can make it through.
I'm sorry, but I swear,
I don't need you.

We live our lives so lifelessly.
There's no hope.
We live our lives so lifelessly.
There's no hope.

How can we make it out alive?
We'll never make it out alive.
