

Sunshine in the Rain

[Kelley Jakle](#)

First time I saw you I knew I could get used to making you smile
I never tire of finding colours in your eyes
Running fingers through your tangled hair
If you'd ask me to run, I'd go with you anywhere

Take my hand, it fits yours like a glove
All I have faced to make you my love
Walk away and find me beside you
'Cause I feel your sunshine in the rain

Cheek to cheek, arm in arm or walking hand in hand
Now it seems when you're gone, it's more than I, I can stand
Movie love is nothing to yearn for when you're lying beside me
The recognizable feelings inside me, if we know this is real

So take my hand, it fits yours like a glove
All I have faced to make you my love
Walk away and you'll find me beside you
'Cause I need your sunshine in the rain

Take my hand
And please stay my sunshine in the rain
