

# New Alphabet

## Eels

You know what?  
I'm in a good mood today  
Well I'm so happy  
It's not yesterday  
Man it was brutal  
With glad use of tissues  
I guess you could say  
That I had issues But it's looking good  
I've dug my way out  
I'm changing up  
What the story's about When the world stops making sense  
Just taking what you can get  
When the people on the street  
Start looking like silhouettes  
When the words just sound like noise  
I need a new alphabet  
When the world stops making sense  
I make a new alphabet Small thinking people  
With their small thinking ways  
I don't have time  
To hear what they say  
This is my world  
I'm staking my claim  
Thanks for the invite  
No thanks just the same It's looking good now  
Full speed ahead  
I'll live today  
Like tomorrow I'm dead When the world stops making sense  
Just taking what you can get  
When the people on the street  
Start looking like silhouettes  
When the words just sound like noise  
I need a new alphabet  
When the world stops making sense  
I make a new alphabet I see, everything  
Is crystal clear  
It's here You know what?  
I'm in a good mood today  
Well I'm so happy

It's not yesterday  
Man it was brutal  
But it's all in the past  
It's good to know it don't have to last  
When the world stops making sense  
Just taking what you can get  
When the people on the street  
Start looking like silhouettes  
When the words just sound like noise  
I need a new alphabet  
When the world stops making sense  
I make a new alphabet
