## The Diplomat

## **Pig Destroyer**

Right all time

You're an angel

Don't let me out of your sight

Someone here that breaks regaining to march speed

like an airplane

You seem to be the diplomat

Right all time

You're an angel

Don't let me out of your sight

Someone here that breaks regaining to march speed

like an airplane

You seem to be the diplomat

Her pulse rises

Her heads about to blow and

As her mouth moves the hate begins to go

And as her pulse rises

Her heads about to blow and

As her mouth moves the hate begins to go

And her pulse rises

Her heads about to blow and

As her mouth moves the hate begins to go

And her pulse rises

Her heads about to blow and

As her mouth moves the hate begins to go

And her pulse rises

Her heads about to blow and

As her mouth moves the hate begins to go
