

# Bitch In the Pit

## Body Count

Bless your flesh, full contact  
Risk your life in a blink of an eye!  
Man on men, Mortal Kombat  
Don't fall, you could lose it all!  
The more brutal the better,  
The harder to rest,  
Body clash and to [?] stay  
I've seen it all, every show  
One thing never cease to amaze! There's a bitch in the pit  
A fucking bitch in the pit  
There's a bitch in the pit  
There's a bitch in the pit Keep it moving, this is no fucking joke  
One slip, you could get your neck broke.  
This is the killer tone where the weak lose  
All the fuck I command you to do is  
**MOVE YOUR ASS! MOVE YOUR ASS!**  
See, I don't give a fuck she's harder than man,  
In the chaos, song after song  
She's not afraid to bleed  
She's [?] remorse me  
In the moshpit all night long.  
She's in the hotter reaction,  
She knows what she's doing  
[?]  
Every night, every show  
There's a bitch in the pit! There's a bitch in the pit  
A fucking bitch in the pit  
There's a bitch in the pit  
There's a bitch in the pit She came here to party  
She's ready to rock  
She said let's ride or die!  
She ain't scared of nothing  
She's ready to fight  
She said she'll die tonight!  
She came here to party  
She's ready to rock  
She said let's ride or die!  
She ain't scared of nothing  
She's ready to fight

She said she'll die tonight!  
She came here to party  
She's ready to rock  
She said let's ride or die!  
She ain't scared of nothing  
She's ready to fight  
She said she'll die tonight! There's a bitch in the pit!  
Who the fuck is that bitch?
