

# The Eagle Has Landed (Orchestrated Version)

## Saxon

Take a giant step for mankind  
On a distant lunar sea  
As you travel across the universe  
Will you take a step, take a step for me  
Will you take a step for me Voyage of an eagle  
Blasting to the stars  
You take the hopes and dreams of men  
To find yourself, to find tranquility  
To find tranquility Traveled across the universe  
And placed the lonely flag  
Out there in isolation  
At the final, the final frontier  
At the final frontier The world's in celebration  
As we wait for your return  
You took a giant leap for mankind  
On another, on another world  
On another world
