Firehead

Dio

Who's that angry man I see Is he coming closer Well I'll just make believe That I've never been afraidCrackle, Crackle, You're all dead Feel the heat from fireheadFrom spooky stories that he's read They put pictures on his body Living out a fantasy To be the last one left alive, hah! Crackle, Crackle, You're all dead Feel the heat from fireheadHe's lost the instruction No control Suicide fever, he won't be much older I know, won't go, awayWhat's that smoke that I can see Rising from the ashes Well, it seems that there will always be Someone just like youCrackle, Crackle, And you're all dead
