

# Bad Girl

## Donna Summer

She wanna be a bad girl  
She wanna be a bad girl  
She running from her past life  
Looking for the spotlight  
She wanna be a bad girl  
She wanna be a bad girl  
She's all up in the street light  
Looking for the spot light  
I chase up  
She got me running every light  
She see me coming  
Got me swerving left and right  
She in a tight spot  
Checking all her blind spots  
'Cause I know you want me there  
When the lights out  
She got the pedal to the floor  
In the rain, in and out of rain  
Like it's some kind of game  
I'm thinking  
That I gotta speed up  
'Cause I know that  
She don't wanna slow down  
She wanna be a bad girl  
She wanna be a bad girl  
She running from her past life  
Looking for the spotlight  
She wanna be a bad girl  
She wanna be a bad girl  
She's all up in the street light  
Looking for the spot light  
And she knows that  
She can drive them insane  
Body like a super model  
Rolling in a range  
And I know that she wanna  
Get down with a thug  
Smack that, give some love  
When she wanna

Wanna give anything to get on her  
I lace her up in some Gucci and Prada  
Take her to the crib it's on all night  
'Cause I'm a let her do what she wants  
She wanna be a bad girl  
She wanna be a bad girl  
She running from her past life  
Looking for the spotlight  
She wanna be a bad girl  
She wanna be a bad girl  
She's all up in the street light  
Looking for the spot light  
Now she's all up  
In the streets and along  
Shorty want it bad  
And she's out of control  
Ain't nobody gonna get in her way  
'Cause she's out there  
Doing her thing, I know  
She needs to be all that type of girl  
That'll make you wait up to  
For her to call back  
But as long as she's bad with me  
I'm a keep chasing her  
She wanna be a bad girl  
She wanna be a bad girl  
She running from her past life  
Looking for the spotlight  
She wanna be a bad girl  
She wanna be a bad girl  
She's all up in the street light  
Looking for the spot light
