

Drove

Coal Chamber

Keep my enemies close to me
And I've been watching you closely
Yes I despise you mostly, yes you
You think you're tall for dogging me
You're small you see a wanna be
A mirror of me is stolen, identity

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

You think you're tall for dogging me

You're small you see a wanna be

A mirror of me is stolen, identity

I keep my friends close to me

And I've been watching you closely

Yes I despise you mostly, yes you

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

You can take the high road

We'll play by my rules

You can take the high road
We'll play by my rules
Say never, say never, say never, say never
Say never, say never, say never, say never
Say never, say never, say never, say never
Say never, say never, say never
Never, say never, say never, say never
Never, say never, say never, say never
Never say, never say
Never say, never say
Never, say never, say never, say never
Why'd I do it?
You drove me to it drove
Why'd I do it?
You drove me to it drove
Why'd I do it?
You drove me to it drove
Why'd I do it?
You drove me to it drove
Yeah
